Oil & Gas / Transportation Proof of Concept

(UX / UI design)

Challenge:

Create and visualize the customer journey of how a well-integrated data platform can transform a painful customer experience into a successful one.

Process:

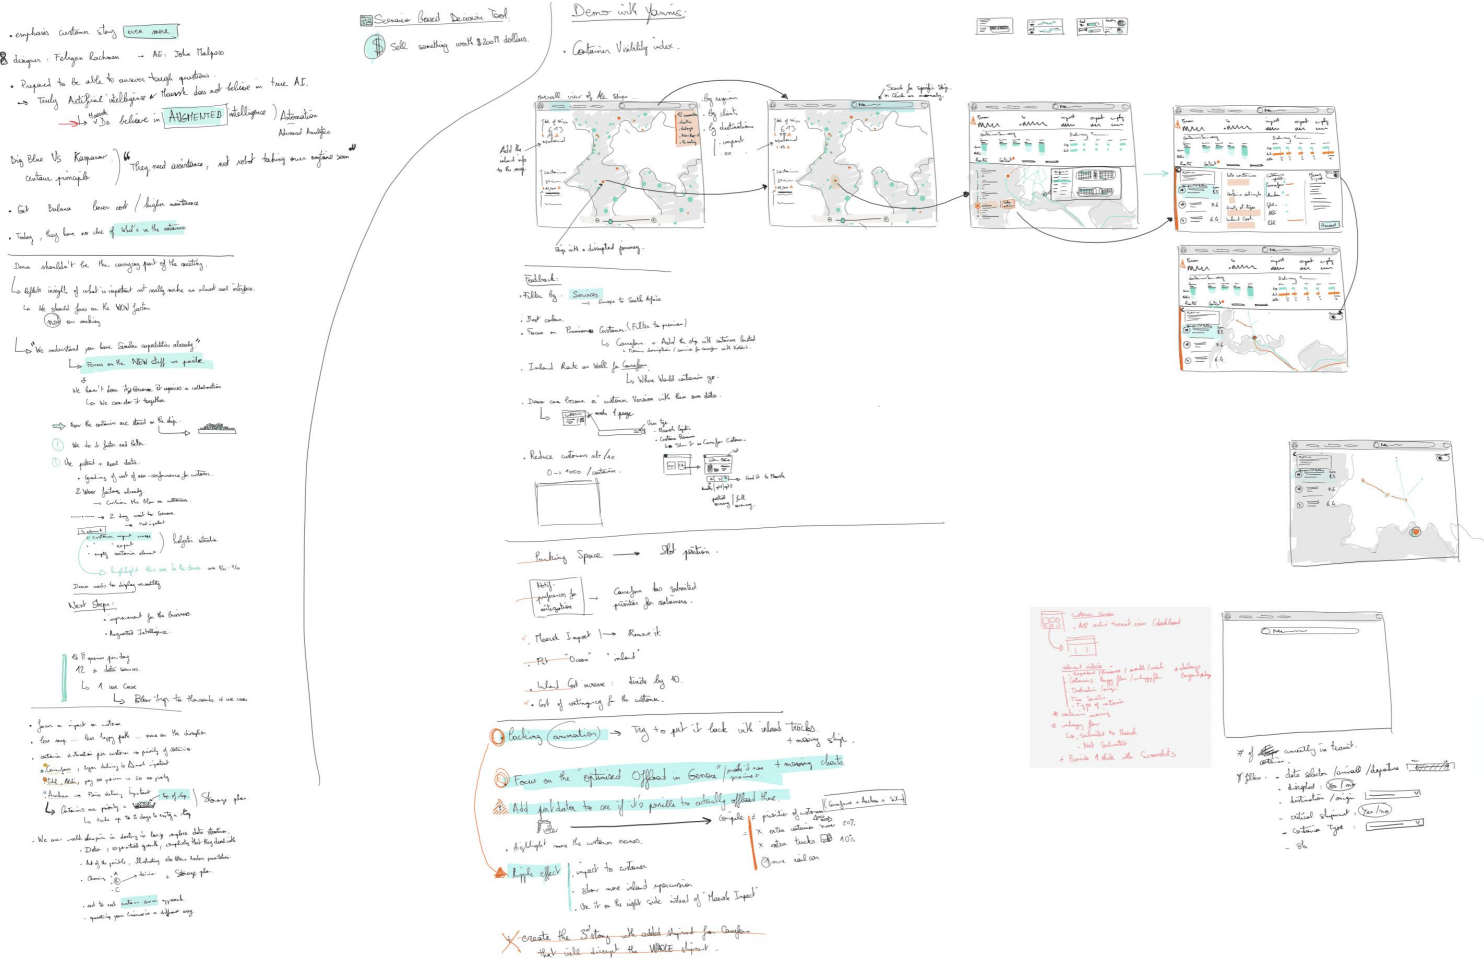

I worked very closely with an SME at Teradata, and we came up with the story that was impactful enough to turn it into a successful customer journey.

Outcome:

This P.O.C. helped secure a meeting with the Chief Data Officer of the targeted account and influenced a \$25M deal.
